

The Carbon Chronicle

VOLUME 33: No. 47

ACME, ALBERTA, THURSDAY, DECEMBER 30th, 1954

\$1.50 a Year; 5c a Copy

Mr. and Mrs. Archie McLeod spent the Christmas holidays in Calgary.

Other citizens who left to spend Christmas with friends in Calgary were Mr. and Mrs. Fred Harsch, Mr. and Mrs. Frank Sherring, Mrs. Stokel and Mabel Bertsch, Mr. and Mrs. John E. Ohlhauser, Mr. and Mrs. Alex McArthur.

Mr. and Mrs. Allan McKinnon, Mr. and Mrs. Dave Pierson spent Christmas with friends and relatives at Michichi.

Tom and Bill White attended the funeral of their sister which was held at High River on Monday, Dec. 27th.

BORN—To Mr. and Mrs. Murray Saunders Dec. 19th, a daughter in Drumheller hospital.

Given Fox had the misfortune to break her ankle on the last day of school Thursday, Dec. 23. We hope you were able to get around for your Christmas dinner, Given.

Mr. and Mrs. Len Poxon left Friday evening for Kelowna, B.C. to spend the holidays.

Mr. and Mrs. Dale Poxon and Mr. and Mrs. Bessent left Friday evening to spend the Christmas holidays at Edmonton.

Mr. Tom White spent Christmas at the home of his son-in-law and daughter, Mr. and Mrs. Ross Dunlap at Drumheller.

Mrs. S. Cadman and Mrs. M. Levens spent the Christmas holidays at the home of Mr. and Mrs. C. Cave.

Mr. and Mrs. Buddy Anderson and family and Tom Dixon left Tuesday, Dec. 22 to spend the Christmas holidays at Red Lodge, Montana.

Bill Dixon was home over the Christmas holidays.

The Home and School will hold a regular meeting on Thursday, Jan. 6th at 8 o'clock sharp. The A.M.A. will be giving a lecture and showing slides on safety re driving. All teen agers are asked to attend this lecture and films at this meeting. Don't forget Jan. 6th at 8 p.m.

BORN—To Mr. and Mrs. Geo. Bell (nee Shirley Saunders) Dec. 22nd, a son, in the Drumheller hospital.

Visitors to Carbon over the holidays were Mr. and Mrs. Howard Brown (nee Anna Carlson) at Walter Permians. Mr. and Mrs. Art Scheffelmier and Mr. and Mrs. Piggott at the home of Mr. and Mrs. Barnes. Miss Evonne Foster at the home of her parents, Mr. and Mrs. Ed Foster. Mr. and Mrs. Frank Ginther at the home of Mrs. E. McAlpine.

Morning Prayer 11 a.m. (Family)
CHRISTMAS GREETINGS—

Mrs. Roberts, the family and myself would like to extend the heartiest of Christmas Greetings to all our new-found friends and neighbors in the district.

Mrs. Howatt, assistant telephone operator, spent Christmas at Turner Valley.

Mr. and Mrs. Steeves and family spent the holidays at the home of Mrs. Steeves' parents at Champion.

Mr. and Mrs. Stan Toirance, Mr. and Mrs. Alex Hay spent the holidays at Lacombe and Red Deer.

The brisk winter weather of the past few days has been more seasonable but nearly as popular with most people, a poll taken by Entice Ennie reveals.

The Scout Notes will be found on page eight of this issue.

Best wishes to one and all for the coming year.

FOR SALE—Large Warm Morning Heater in good condition.—Phone 111, Otto Bertsch, Carbon.

CARD OF THANKS

Mrs. Margaret Isaac, who is a patient in the Drumheller Hospital, wishes to thank all of her many friends for the flowers, cards and other gifts, and for the many expressions of kindness that have been shown her during her stay here.

WINTER CARNIVAL SCHEDULED—Quebec City is busy laying plans for a winter carnival which will produce scenes such as the above, featuring skating, skiing, tobogganing and similar winter sports. The carnival, which opens officially on January 6, or "Little

Christmas", will run for six weeks, ending with a "Mardi Gras" celebration. Many of the color-laden winter sports events scheduled for the carnival will take place on the ski hills of Lac Beauport (upper left) and in the shadow of the famed Chateau Frontenac hotel (lower right).

Announce federal health aid for five provinces in latest round of grants

OTTAWA.—Hon. Paul Martin, Minister of National Health and Welfare, announced that Saskatchewan will receive a \$3,100 federal grant under the National Health Program to help defray the cost of securing the services of a regional hospital service organizer on an exploratory basis.

In making the announcement, Mr. Martin pointed out that the main function of the hospital organizer will be to promote co-operative activities among the hospitals in one of the public health regions of the province. This will not only enable the hospitals to provide improved service but will exercise co-ordination and improve efficiency of operation.

\$48,000 to Alberta

Two Alberta hospitals will be assisted by National Health Grants totalling \$48,250.

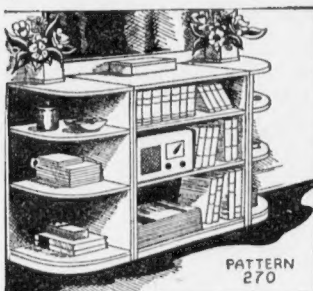

A grant of \$30,500 is being made to St. Catherine's Hospital, Lac la Biche. The Daughters of Jesus, who administer the hospital, plan to add to the present facilities 36 new active treatment beds, and 14 bassinets. Two new operating rooms and a new laboratory and x-ray department will also be added.

HOW TO HELP YOUR Sore, Painful Piles

If you are discouraged about getting rid of the itching soreness and burning pain of your piles a grand surprise awaits you when you try Hem-Roid, an internal pile treatment.

Get a package of Hem-Roid at any drug store and use as directed. You will be pleased at how quickly your pile trouble is relieved. Only \$1.59 for the big 60 tablet package. If you are not 100% pleased after using Hem-Roid 2 or 3 days as a test, ask for your money back. Refund agreement by all drug stores.

Home Workshop

PATTERN 270

The reason why this number is one of the most popular we have ever offered is probably the fact that it is so adaptable. The centre section may be used with two end units as shown; or with one or none at all. A corner section (pattern 271) and a drop-leaf desk (No. 272) may be combined with the above piece for a continuous assembly on two sides of a room. The patterns give actual size cutting diagrams for all shaped parts, list of materials needed and the steps in assembling and finishing. Patterns should be ordered by number and 35c enclosed for each pattern requested. For first class mail delivery include 2c extra for each number.

This unique combination of table and storage chest or playthings is extremely simple to make. The material used is standard in all lumberyards. When playtime is over toys are put away and the table is folded to make a cover. Note the wheels are adjusted so the chest is as low as possible to roll easily. The inside is painted bright blue. The outside is done in white enamel with red and blue stencil designs which are traced directly from the pattern. Everything is complete on pattern 252. To get a copy of this pattern send 35c with name and address. If you like to make wooden toys include \$1.50 additional and ask for the Toy Packet containing a big assortment of designs to cut out and paint in realistic colors.

Address order to—

Funny and Otherwise

"That suit you're wearing is certainly a credit to your tailor."
"Debit, old man, debit."

"I never see you with Miss de Style nowadays."
"No, I couldn't stand her vulgar laughter."

"Really, I never noticed it."
"No? Well, you weren't there when I proposed to her."

"Ladies and gentlemen," shouted the street performer, "in a few moments I will astonish you by eating coal, stones and nails. I will also swallow a sword, then I will come around with a hat, trusting to get enough for a crust of bread."

"What!" came a voice from the crowd. "Still hungry?"

Chorus Girl: "Look, girls, I've just got my diamond engagement ring."

Friend: "It's lovely, darling. Mind you don't drop it, as it means seven years' bad luck."

Prof.: "Are you sure this story is original?"

Student: "Certainly it is."

Prof.: "Heaven be praised! That I should at last meet Rudyard Kipling."

"I work my fingers to the bone for you every day and what do I get?"
"Sore fingers?"

Doctor: "Why do you want to be cured of winking? Does it matter so very much?"

Patient: "Matter! I should say it matters. I wandered into an auction sale this morning, and now I own three grand pianos, four carpets, and a parrot!"

A recruit was pulled up by an officer for not saluting.
"What do you mean by walking past me puffing a cigarette and making no attempt to salute?" demanded the officer.

Standing smartly to attention the recruit replied: "Sergeant-major said, sir, never salute with a cigarette in your mouth, sir."

New \$700,000 Pacific Naval Laboratory now open

The new, permanent quarters of the Pacific Naval Laboratory, (PNL), Esquimalt, B.C., the defence research board's westernmost establishment, was opened officially on Friday afternoon, October 8. Vice-Admiral E. R. Mainguy, chief of the naval staff and a member of the defence research board officiated.

With Admiral Mainguy were Dr. Omond M. Solandt, DRB chairman and other board members who represent a wide scientific and geographical diversity across Canada.

The T-shaped \$700,000 structure, one of two board establishments devoted to scientific investigations, for the Royal Canadian navy, is ideally located for naval research adjacent to the entrance of HMC Dockyard and facing the strait of Juan de Fuca. Constructed of gray and green concrete masonry, the building is one of the most up-to-date laboratories in Canada.

Unique section

To develop the mechanical and electronic gear necessary for the laboratory's scientific functions, service groups have been set up within the establishment. These groups undertake as well the development of special or experimental gear directly for the navy. One section, unique because it fulfills a service requirement, investigates chemical and metallurgical problems encountered by the navy on the west coast. In effect, it is primarily a "trouble shooting" section.

A wing leading from the main rectangular building contains a large research tank equipped with electronic recording devices. The action of either sea or fresh water under a variety of conditions can be simulated. Overhead cranes in the same section permit the use of heavy naval equipment, for experimental and development purposes.

For seas operations, the navy provides the scientists with HMCS "Cedarwood," a vessel especially fitted for the initial phases of the main research program. In addition, CNAV "Ehkol," a small motor ship, is available also for marine investigations by arrangements with the Pacific Oceanographic group, of Vancouver.

Dr. F. H. Sanders, now chief of the board's division 'A' at headquarters in Ottawa, organized the

laboratory on its inception in 1948. He was succeeded as superintendent a year ago by Mr. Johnson, a research engineer with a wide background in physics, who besides directing the activities of the laboratory acts as scientific adviser to the Flag Officer, Pacific coast.

PNL's primary objectives are a better understanding of the physical sciences associated with the sea. The application of the knowledge acquired to the development of new techniques employed by the RCN also plays an important role in the laboratory's activities. Additional objectives are the provision of a scientific service for Canada's fast-growing west coast fleet and Canadian participation in the solution of problems affecting naval operations in the Pacific.

Initial reason for establishing the laboratory on the west coast was to take advantage of the deep inlets and sheltered water of the British Columbia coast. These afford a wide range of oceanographic conditions and permit the performance of full-scale test and experiments throughout the year.

PARTY SHAKEUP

Peng Chen, deputy director of the Communist Party in Red China, is believed to have set the stage for a new purge. A speech, monitored in Tokyo, indicated that all is not well in the party's ranks.

Eat Right - Live Right - Feel Right

How To Hold FALSE TEETH More Firmly in Place

Do your false teeth annoy and embarrass by slipping, dropping or wobbling when you eat, laugh or talk? Just sprinkle a little FASTEETH on your plates. This alkaline (non-acid) powder holds false teeth more firmly and more comfortably. No gummy, gooey, pasty taste or feeling. Does not sour. Checks "plate odor" (denture breath). Get FASTEETH today at any drug counter.

Every roof could be an airport with water tank landing field

By Rex Stanley
(CPC Correspondent)

PHOENIX, Ariz. — A young, "practical" engineer who put four years of his own time and money into a revolutionary idea for helicopters, has hit the jackpot of fame and potential fortune here.

Stodious, 34-year-old Allan C. Thomson doesn't have an engineering degree. He worked nights to get through a technical school. His helicopter background is practical experience.

Recently, however, a 'copter whirled to the roof of a downtown Phoenix building and landed Thomson in the lap of a commercial bonanza. He had discovered a way to make almost any rooftop an airport, without expensive changes in the building.

Thomson's invention is a landing platform that floats in water. Aviation experts agree it's a real milestone in flying history. With the "helfloat," whirly-birds can use nearly any rooftop, carry passengers and freight on inter-city and feeder hops right to the centres of America's cities and towns.

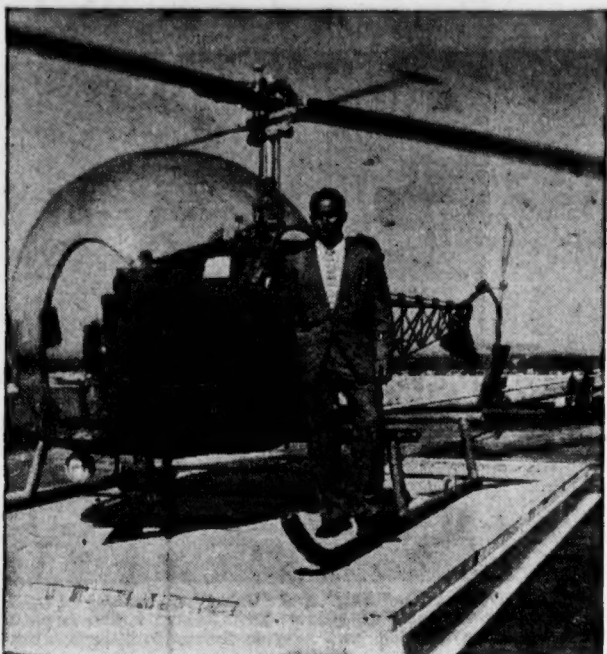

Four cities have rooftop heliports in limited operation now, without Thomson's new floating platform. Roofs, however, had to be paved with thick concrete, and the cost of altering whole buildings to support this tremendous added weight had all but stalled our helicopter progress. As a result, rooftop ports seemed impractical.

Thomson, who sat up evenings and experimented in his backyard, found a simple solution in basic physics: the weight of a helicopter can be evenly distributed over a roof by water. It can be done on an ordinary, low-stress roof, without changes.

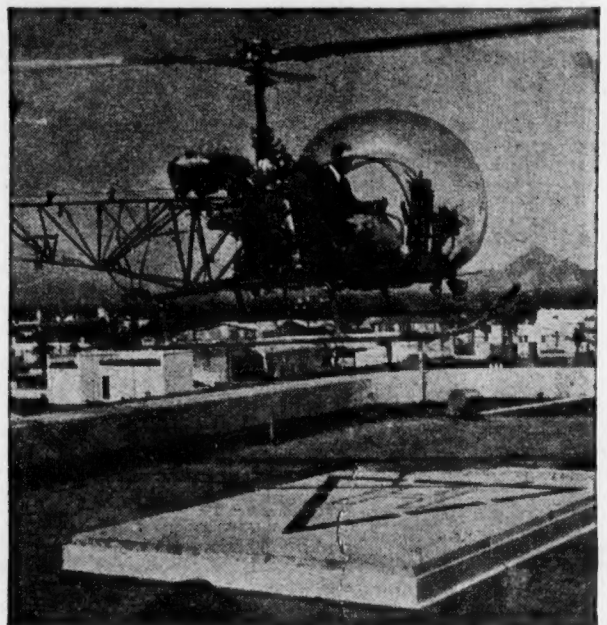

Thomson's success is assured, say aviation representatives, because his invention is simple and inexpensive. The floating section is made of honeycomb aluminum, covered top and bottom. The "tank" is just a wood-sided, low vat that fits closely around the float. Four inches of water support the float.

According to Thomson, even the largest helicopters, like the 50,000-ound Piasecki, can land and take off from his "helfloat." He points out that the float area would be increased for bigger craft, "and this would increase the weight distribution area on the roof."

A measure of Thomson's financial rewards is in comparative costs. Concrete heliports have been installed for \$22 per square foot, the floating platform \$10 per square foot in the test model, probably \$5 in full production.

Allan C. Thomson stands beside a helicopter resting on his "helfloat" which has converted this roof into a heliport.

Pilot Bob Gillbreath comes in for landing on a "helfloat." There is a six-storey department store building underneath. —Central Press Canadian.

Xmas 1954 first in 15 years for Britain without rationing

LONDON.—This will be Britain's first Christmas without food rationing in 15 years—and as a result, the most sumptuous. Housewives happily are preparing holiday meals from the greatest assortment of foods and delicacies seen in shops since the start of World War II in September, 1939.

And for the children born since the outbreak of the war, this will be their merriest Christmas, not only because of the goodies to eat. There will be more too.

Even the traditional Christmas pudding will be more of the home-made variety. London shops report the ready-made variety is a slow seller. No trouble finding the makings, they say.

London already is decorated for the Yuletide, and trees with colored lights and decorations will deck most homes.

The royal family plans to spend Christmas at Sandringham — in much the same fashion as the rest of Britain. Carolers with their traditional lanterns on poles will sing the favorite carols of Queen Elizabeth and her family, and an excited Prince Charles and Princess Anne will go to bed wondering what Santa will bring them.

Early Christmas morning, the young prince and princess like

children all over the country will open gifts, and after breakfast the family will walk to the old parish church for services. Then, back home for the traditional Christmas feast, and the opening of more gifts.

All over Britain, the Christmas dinner is served at mid-day.

Inspiration of paralytic spurs girl to walk again

HALIFAX.—Seven years ago doctors doubted whether 22-year-old Laurena Deveau would ever walk again. During the long days in a hospital bed, she had doubts, too.

The pretty brunette now can walk a little without crutches. Her legs, withered by the ravages of rheumatoid arthritis, are stronger. Her decalcified bones are becoming harder. They no longer crumble like chalk.

Laurena doesn't know how she's done it, except that she had to draw on the inspiration of a paralyzed man coupled with her own unyielding persistence.

Confident decision

"I just decided I was going to walk again," she says. "But Walter had a lot to do with it."

Her hazel eyes brighten when she talks of Walter Callow, Canadian humanitarian. The blind and legless veteran of the First World War spends his time in Halifax

veteran's hospital planning the comfort of fellow cripples.

"He had a lot more to do with it than I did. I heard about him while I was in hospital and figured that if a blind and paralyzed man could do what he's doing, then I could get on my feet and perhaps some day help." Today, as Callow's office manager, she looks after all the paper work, takes dictation when the other secretary is busy, does the errands and everything else that goes with Callow's work.

Callow, striving to have his specially designed wheelchair coaches operating throughout North America, works on a \$40,000 annual budget. The money is received in donations from the world over. It's a big chore for a man who's been flat on his back for 23 years.

He now has three coaches in operation, including one in Calgary.

Stricken at 16

Laurena, barely 16 and with hopes of entering commercial school, became stricken overnight at her home in Weymouth, N.S.

"The hospital told me I would be there a week or 10 days," she says. She stayed three years, two months and two days. "And I sure counted every day." Unceasing pain wracked her body and she rarely ever left her bed.

Determined to walk, she slowly began her recovery. She could be moved in a wheelchair, which meant an outing in Callow's coaches. She went to sports events. Finally, weighing 90 pounds and gaunt, she left hospital.

Brighter days

After several jobs in city business establishments, one of Callow's coach hostesses mentioned there was a vacancy in his office.

"It was something I had once hoped to do, so I came. I still have to use my crutches now and then, but I'll probably be able to get rid of them in two or three years."

"Walter is very considerate and understanding about my troubles, and I'm just as understanding about his. I'm really settled here now, and like it a lot."

DOMINION OVER FEAR

A man's fear, unconquered, conquers him, in whatever direction. —Mary Baker Eddy

It is only the fear of God that can deliver us from the fear of men. —Witherspoon

There is great beauty in going through life without anxiety or fear. Half our fears are baseless, and the other half discreditable. —Bovee

He who fears being conquered is sure of defeat. —Napoleon

No one loves the man whom he fears. —Aristotle

Fear is more painful to cowardice than death to true courage. —Sir Philip Sydney

-: Strictly fresh :-

Statistical Services office at Grenier, N.H., Air Force Base, which handles some 500 reports a month, has just issued one titled, "A Report on the Number of Man Hours Expended on a Report on the Necessity and Value of Reports Made to the Air Force." You can't handle a report like that. You need a derrick.

Student poll at the University of Toronto indicates that the average coed drinks 12 pints of beer a week, the average male student seven. Just another instance disproving the adage that it's always the woman who pays.

Teacher in Bay Village, Ohio, cautioned her charges against too much attention to comic books. At least one sprout's non-interest

has been converted into a full-time comic-reading project. She should use a new approach—forbid him to read his history book.

Prisoner-waiter in Chicago, Ill., escaped from a second-floor room while serving lunch to a jury by sliding down a large tablecloth. Didn't even wait for a tip.

Fellow tried to smuggle a \$22 case of foreign whisky into San Francisco. Caught. Cost him a total of \$501.16, or just about by-the-glass price in a Stateside bar.

Here's a Different Holiday Dessert Treat

BY DOROTHY MADDOX

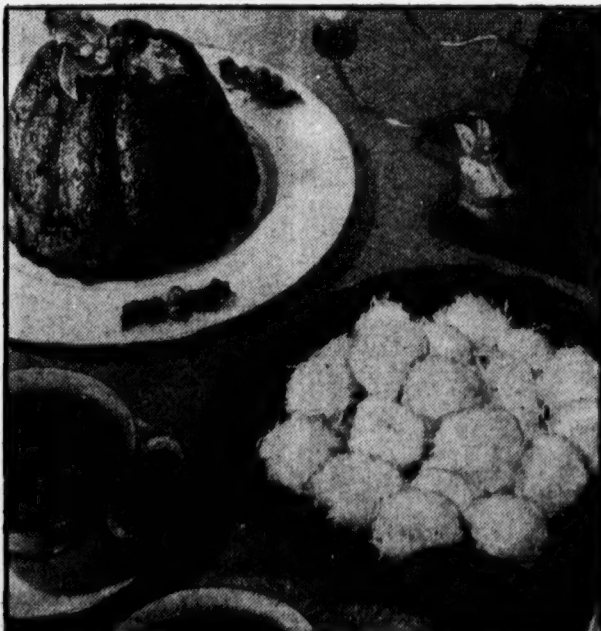

WHEN cookie- and fruit-cake-satiated guests drop in during the holidays, perk up their jaded palates with a good cup of steaming coffee, and a serving of hot plum pudding topped with delicious, chilled coconut hard sauce balls.

Coconut Hard Sauce Balls (Makes 30 balls)

One-third cup butter or margarine, 1 cup sifted confectioner's sugar, 2 teaspoons brandy or ½ teaspoon vanilla, 1 cup shredded coconut, cut fine.

Cream butter, add sugar gradually, and continue creaming until light and fluffy. Add brandy and beat well. Drop by teaspoon into coconut and roll into ¼-inch balls.

Chill before serving with the plum pudding, which should be warmed.

Treat your guests to an old holiday favorite dressed up with this delicious coconut hard sauce.

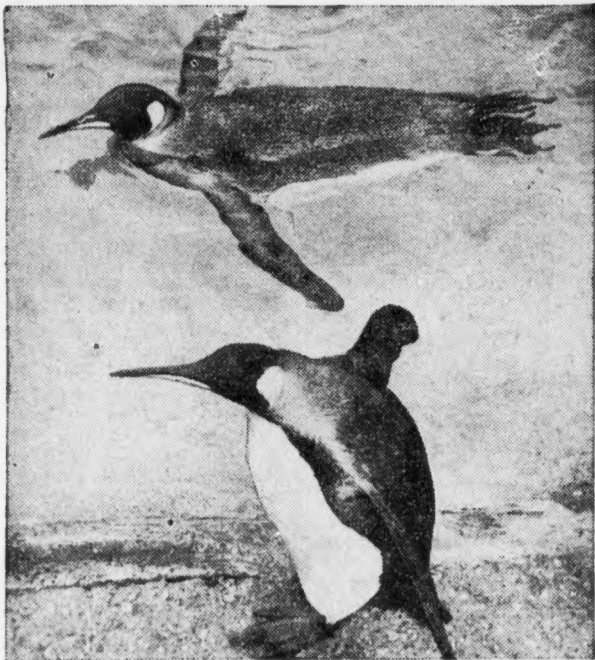

Must follow doctor's orders

Heart disease takes more lives in Canada than any other condition. There are also uncounted numbers of people who are dying with some form of heart ailment. However, it is true that many cases of heart trouble could be arrested or, perhaps cured, if taken in time. At the first symptoms of a heart ailment, medical treatment can often remove the cause of the trouble, or at least help the patient to live a practically normal life, providing he follows the doctor's orders. 3120

World Happenings In Pictures

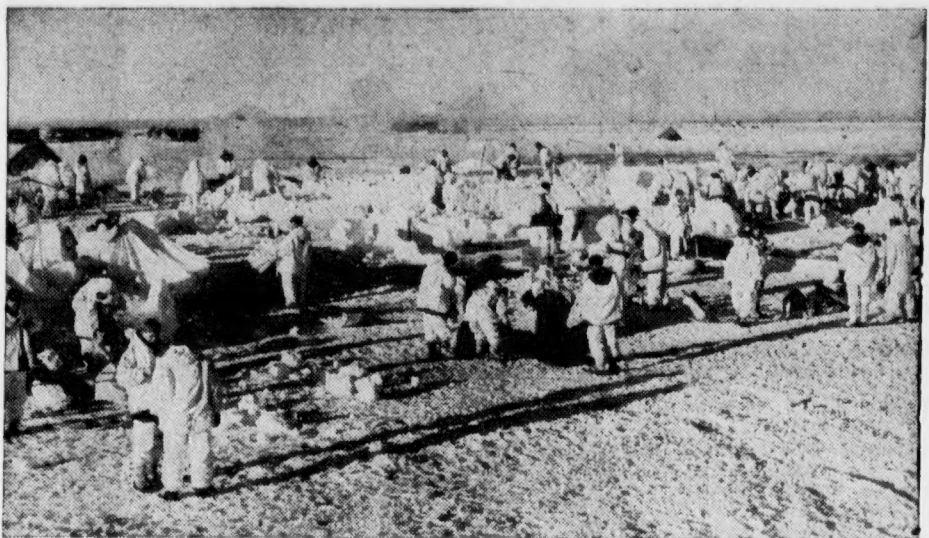

SHEILA SHANNON McMACKIN fills the Lord Elgin Trophy, awarded to the grand champion steer at the International Livestock Exposition in Chicago November 26-December 4. The trophy is named for the Scottish Earl of Kincardine, noted breeder of Aberdeen-Angus cattle.

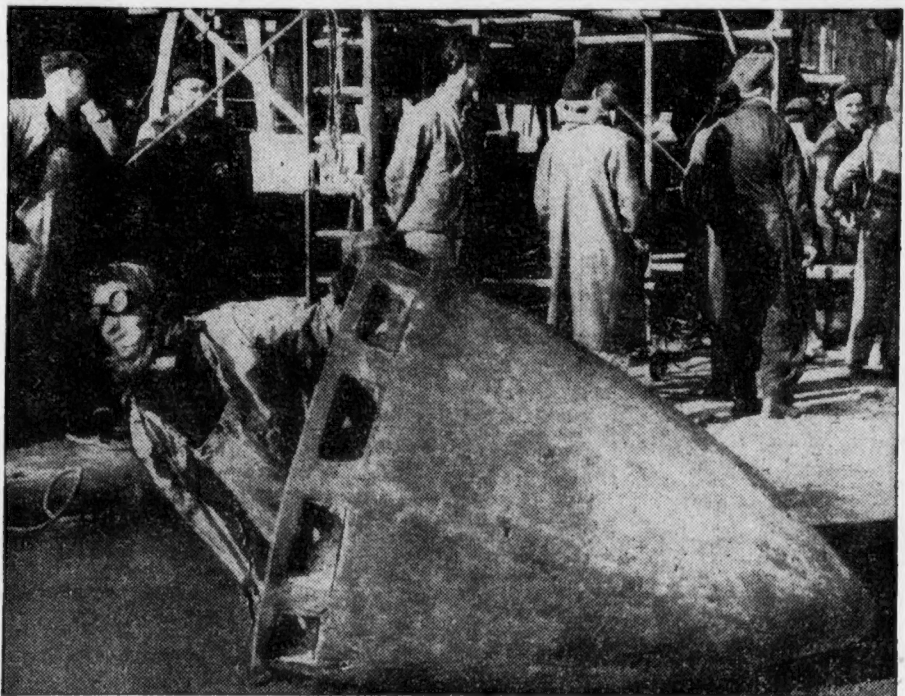

HERE'S HOW—Swimming instructor at the London Zoo's penguin pool gives a lesson in the fine art of pinfeather propulsion to a dry-land neophyte. Penguin on shore is spoiled by relatively mild climate of England, and doesn't want to get his tuxedo wet.

SCENT OF VICTORY—That's what Woody Hayes is smelling in the dressing room at Columbus, Ohio, even if it looks like a rose. Ohio State's head coach and his victorious Buckeyes are Rose Bowl-bound after the 21-7 defeat of Michigan which brought the Buckeyes a bid to the West Coast New Year's Day classic at Pasadena, Calif.

ENEMY LOCATED—"Able" and "Baker" Companies of the Royal Canadian Regiment break camp when word arrives that their patrols have located r who is cleaning one of the gigantic end-cones of bi-service exercise 'Bulldog Two' now underway in Canada's Northland near Churchill, Manitoba. (National Defence Photo)

WHERE'S THE RECEPTION COMMITTEE?—This space travel is disappointing. Fellow takes off from Mars in his flying teacup, lands on earth, and what does he find? Silly Earthlings all watching a primitive, waterborne Earthship undergoing an overhaul. To come down to earth, the creature peering from the "spaceship" is a dockyard worker who is cleaning one of the gigantic end-cones of the liner Mauretania's propellers, as she lies in drydock at Southampton, England.

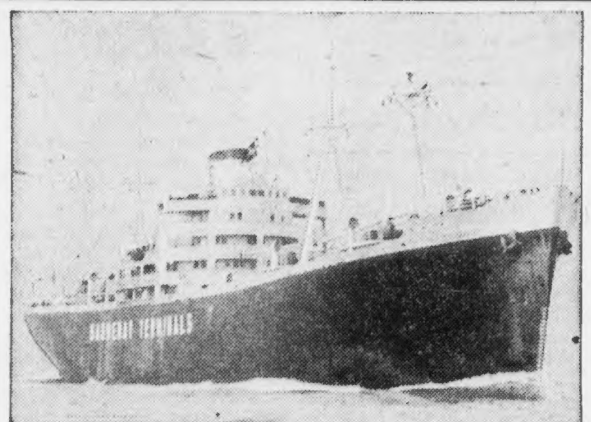

AWARD FOR BRAVERY—Cpl. R. B. Gelinas, of the RCAF No. 3 Fighter Wing at Zweibrücken, West Germany, who has been awarded the British Empire Medal for saving a fellow airman from being sucked into a Sabre Jet air duct. Cpl. Gelinas is from St. Basile Nord, Que.

AN IDEA

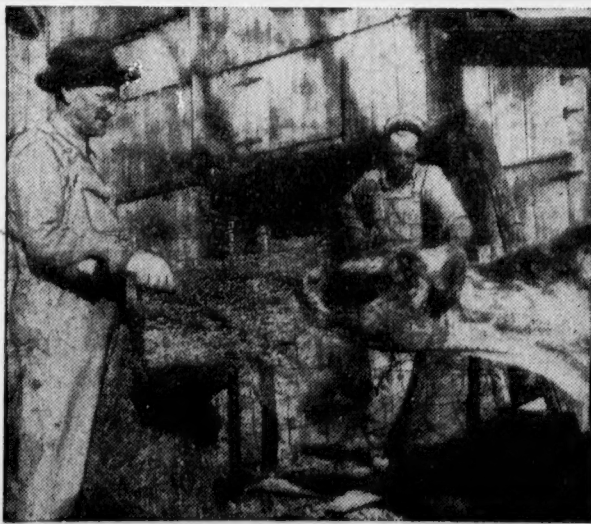

A tall man was leaning out of a railway carriage window when the train gave a lurch, and, in putting up his hand to steady himself, he accidentally pulled the communication cord.

The only other occupant of the compartment said: "Quick! Will you give me fifteen dollars to have a fit?"

A sea-lion is a long-eared seal.

THE 12,000 TON SUNRIP, the largest dry cargo vessel ever built in Canada steams out of Quebec for Jamaica to enter the aluminum oxide trade between the Caribbean and Kitimat, B.C.

TASTES JUST LIKE HAY—Which it is, but it's the fanciest fodder Flossie was ever fed on the farm near Uniontown, Kan., owned by Lawrence Johnson, at left. This is just one nibble of some 42,800 pounds of California hay flown to Johnson by a relative to tide the drought-hit Kansas farmer over the winter.

IT IS ALL SO SIMPLE—All you have to do is to sit down and write a letter to Santa Claus asking him to bring you a doll, a pair of skates, a gun, or anything your heart desires. At least that is the way most children seem to look at it, and the two charming young misses in the above layout are no exception. It all started for them a few years ago when they were old enough to realize that if they were good little girls, Father Christmas would come down the chimney on Christmas Eve with a bag full of toys for good little girls and boys. And that's the way they intend to keep it. This business of writing to him is purely a precautionary measure, after all he has so many children to worry about he could forget and they wouldn't like that to happen to them. When Mummy took them to see the 'old man' himself at his temporary residence in town, they thought it would be a good idea to jog his memory just a little more. Of course being good is a little tough, hence the prayers for themselves and Mummy and Daddy too. Now to bed, just a few more nights, and soon they will be able to awake bright and early to see those cherished gifts.

DECODED INTELLIGRAM

1—Is. 2—Does. 3—Scotland. 4—China. 5—Watch Night. 6—Rosh Hoshanah—fall. 7—Pagan. 8—Will. 9—Scythe. 3120

Drive With Care!

Ten Word INTELLIGRAM

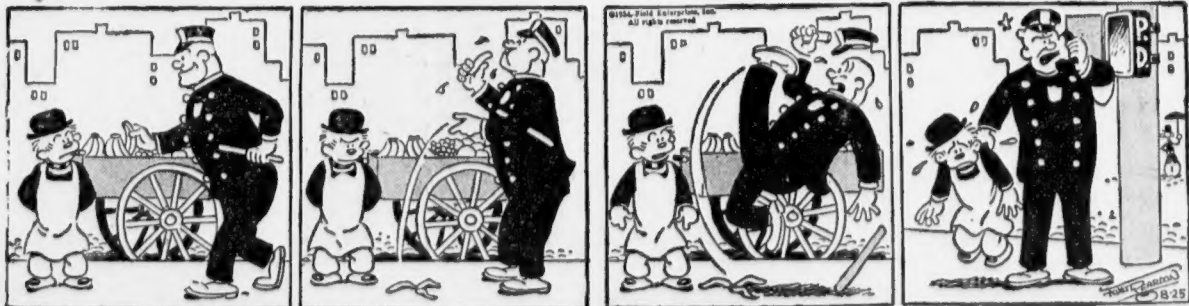

Check the correct word:

1. New Year's Day observance (is) (is not) world wide.
2. In some countries it (does) (does not) mark the time when all debts are to be paid.
3. New Year's, rather than Christmas, is the traditional 'gift-giving day in (Scotland) (Ireland).
4. The Feast of Lanterns in (Italy) (China) climaxes extended New Year's celebrations.
5. Church services held New Year's Eve are known as (Watch Night) (Year's End) services.
6. The Jewish New Year is called (Rosh Hoshanah) (Yom Kippur), and occurs in the (spring) (fall).
7. Revelry on New Year's Eve is of (Christian) (pagan) origin.
8. When 1955 arrives in Paris it (will) (will not) still be 1954 in New York.
9. Father Time traditionally carries a (stave) (scythe).

Count 10 points for each correct choice. A score of 0-20 is poor; 30-60, average; 70-80, superior, and 90-100, very superior

WEEKLY BIBLE COMMENT

JESUS TAUGHT TRUE WORTH OF GIVING

When Saint Paul was leaving Miletus after having called the elders of the Christian Church at Ephesus to hear his words of farewell before his last visit to Jerusalem, he bade these Christians to remember the words of the Lord Jesus: "It is more blessed to give than to receive."

No words could express more accurately the spirit of all that Jesus had said and exemplified in His life and death. Nor could any words express more pointedly the challenge of Jesus and His teaching to the ideas and actions of what He called "the world."

Getting and receiving is such a normal process of life and is so natural to happiness and welfare that we might well ask whether Jesus was right in declaring that it is more blessed to give than to receive.

We may ask, but there is only one answer. And the answer is found not only in some spiritual blessedness that compensates for the giving or renunciation of some material possession or treasured thing.

Jesus offered men rest. "Come unto me . . . and I will give you rest."

Yet rest is the one thing that men, rich, poor, old, young, sick or well, cannot do without. That offer of rest by the Master was

supreme in its insight into human need.

So, in this matter of the blessedness of giving in any large and spiritual reality, the assertion that it is more blessed to give than to receive is an extension of much that is true in normal living. The giving of parents to their children, the giving by lovers to loved ones, the innumerable acts of graciousness and self-sacrifice in which men and women find supreme satisfaction, bear witness to the testimony of Jesus.

Kitchen Meditations

By JANE DALE

MERRY CHRISTMAS!

It goes by word of mouth,
Or from eyes to smiling eyes;
By post, by land, across the world,
And even through the skies.

It goes from me to you;
From you to those you meet.
It goes, a benediction,
A wish, strangely complete.

It is a joyous sound;
A gift for all to share,
When all around is heard—
"Merry Christmas!" everywhere.

The Great Slave Lake has an area of 7,100 square miles.

Weekly Tip

FOR BAD ODORS

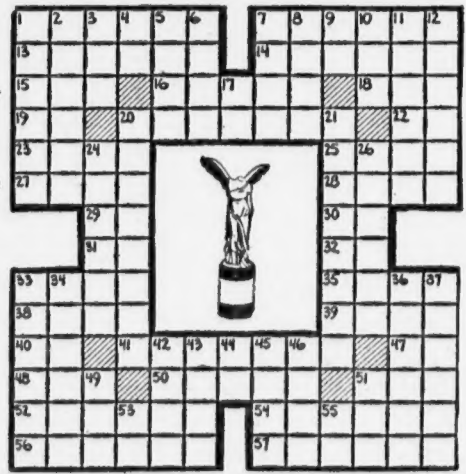

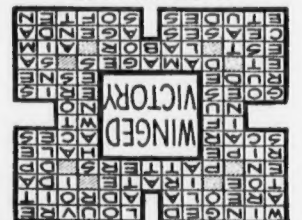

Sprinkle freshly washed garbage cans with moth crystals or moth balls to prevent bad odors and bugs.

Here's the Answer

By FOXO REARDON

The Sports Clinic

(An official department of Sports College)
Conducted by Lloyd "Ace" Percival

Continuing our list of commonly asked questions and their answers, we deal with the following hockey question.

"I have noticed that very often in ice hockey a goal is scored by a team immediately following a play in which they were nearly scored against. Is there any explanation for this?"

This is an interesting point and is noticeable in many games besides hockey. For example, in football a team will have a chance to score a touchdown. It fails to score but the opposing team will come charging down the field to score. Generally, the situation seems to be caused by a loss of moral on the part of the team that missed its scoring chance combined with a resulting increase in moral on the part of the team that has avoided what looked like a sure score. This may have only a momentary effect on the moral—as in the case of a hockey game—but sometimes it is enough to slacken the effort of one team and increase the effort of another. Thus there is a sudden change in the play. Your only protection against this situation is to be aware of it. When a scoring chance is lost the reaction must be a quick realization that in the next few minutes of play effort must remain high. The coach can

help control things here by sending substitutes as soon as possible with definite instructions to keep things moving.

Here's a question concerning pre-game rest.

"Do you believe it is a good idea to go to bed for two or three hours on the day of a game?"

It is quite a common practice for coaches to put their athletes to bed for two or three hours before the game. Whether or not this is a good idea depends pretty well on the athletes themselves.

If the athletes can go to bed and sleep or even rest comfortably, then it is a good idea. However, if any of the athletes are jittery or nervous then they should be allowed to do something that will help take their minds off the coming game. This problem, like so many others, is a matter of individual differences.

This next question comes up periodically.

"Is long distance running good for the heart?"

Usually this question reads, "Is long distance running bad for the heart?" It is encouraging to get the question put in a positive way. According to the latest medical and physical education research and testing, such activity as long distance running has a very beneficial effect on the normal heart. Measurement experts say that the most efficient hearts they find are those of the long distance runners. Anyone who is a long distance runner can be assured that he is developing a wonderful heart efficiency that will stay with him for many years if he takes care of himself when he retires from competitive running.

Incidentally, a recent note in a national sports magazine shows once more how the use of honey is fast becoming the most popular energy replenisher with coaches and trainers. It tells how the trainer of the Stanford Football Team uses honey for replenishment with great success.

Alberta supporting Municipal jubilee plans with funds

Hon. C. E. Gerhart, minister of Municipal Affairs, has announced \$100,000 will be made available to assist Alberta municipalities with Golden Jubilee observations.

The fund will be available on a per capita basis for various Jubilee programs that can include development of local attractions or local production of Jubilee activities from other parts of Alberta. Adjacent communities wishing to combine their Jubilee programs may pool their grants.

Arrangements are now being made for provincial Jubilee organizations to assist communities in organization and planning of Jubilee programs. Communities wishing Jubilee grants are asked to set up Jubilee committees and write to the Alberta Golden Jubilee Committee, 410 Alberta Jasper Building, Edmonton, so that a representative of the Jubilee committee can attend organizational meetings.

"Haze of ignorance" in United States about Canada

Prof. Robert W. McIntosh, in charge of tourist and resort extension services at Michigan State University, told members of the Manitoba Tourist Association that there is still a "haze of ignorance" in the United States regarding Canada.

"You have to tell people where you are," he emphasized. "It will cost you money," he said, "and you must be prepared to tell your story over and over again."

Prof. McIntosh was conducting a school for tourist camp operators. The school, second of its kind in Canada and first in this province, was held in conjunction with the third annual convention of the Manitoba Tourist Association. Attendance numbered more than 100, with representatives from each of the province's many resort areas. President Art Laing was chairman of the three-day meet.

Baby quilt

7209

by Alice Brooks

See how fast baby goes to sleep when he has all his animal friends to keep him warm. Embroider a quilt that's a circus, farm, zoo—all in one! So easy, thrifty!

Pattern 7209: Animal quilt! Embroidery motifs, applique patches, diagrams, 22x44 inches.

To obtain this pattern send twenty-five cents in coins (stamps cannot be accepted) to:

Department P.P.L., Household Arts Department, 60 Front Street W., Toronto.

Be sure to write plainly your Name, Address and Pattern Number.

Brimful of thrifty gift ideas... our Alice Brooks Needlecraft Catalog... 82 of the most popular embroidery, crochet, sewing, color-transfer designs to send for. Plus 4 patterns printed in book. Send 25 cents for your copy. Ideas for gifts, bazaars, fashions.

Helpful Hints

Do not wash glassware with strong soap. If the soap is too strong it will eat off the glaze.

A little cornstarch or flour brushed over the strip of rubber around the refrigerator door after washing will make it last longer.

To keep uncooked, smoked meats fresher longer, wrap in a cloth that has been saturated with vinegar and wrung out. Then wrap meats in wax paper.

Fish when frying will not spatter so much if a colander is inverted over the pan. The small holes, will allow the steam to escape.

There are now more than 50 different household electrical appliances to use in Canada today, compared to only 19 in 1930.

On The Side

By E. V. Durling

Does a parrot know what it is talking about? Or is it just an imitator of sounds? All indications are that it is just a mimic. A parrot can live as long as 200 years. Imagine the tales a 200-year-old parrot could tell if it had the mental capacity to remember what it had seen and the power to converse. Incidentally, how unkind it was of nature to make it possible for a parrot to live 200 years and such a lovable animal as a dog, only 14. That certainly is a tough break for dogs and their loving masters. Why, sir, even a goose can live to be 80 years old.

Attractive or ludicrous

Females acting as fashion models frequently assume poses that seem slightly ridiculous. Their efforts to assume a haughty expression also often make them appear a little ludicrous. Another of their great problems is what to do with their hands. They have tried to solve this by pointing at something. That also has a tendency to make a model appear more amusing than impressive.

LIFE IS TWICE AS SHORT

A bus driver can hope to live longer than a conductor. So say the life expectancy experts. Being a conductor is said to be harder on the nerves. That is due to the manner in which so many people nag conductors. This research considered only buses that have both driver and conductor. How about the one-man buses where the operator is both driver and conductor? How about that poor guy's life expectancy? Would seem to me that driving a bus through the traffic of a major city and also having to collect fares, make change, issue transfers and answer questions would take at least 15 years off a man's life.

Important words

What are the three sweetest words in the English language? Majority believes they are, "I love you." However, there are cynics who favor "Enclosed find cheque." How about two little words? "Thank You" deserves a high rating. How depressing it is after making a purchase to have your change handed you in silence. The Hickey brothers, countrywide cigar stand chain organization, consider an expression of thanks so important that it has above all its establishments a sign reading "Your purchase free if we fail to thank you."

Pocket size car

A man in England built an automobile that may make him a millionaire in a very brief time even with taxes what they are. This is a two-seater car. The man built it for \$280. Mass production would, of course, make that cost much lower. This little car can do 50 miles an hour. It can travel 90 miles to the gallon of gasoline. The highly skilled mechanic who built this car at home is a young fellow named Tom Karen. His car would be ideal for an extra car to be used by a wife as a shopping car. Or for getting to a canasta party or a beauty shop in a hurry when papa has taken the family car to the office.

Not looking her age

Have finally met a mother and daughter who actually look like sisters. The mother is 37. The daughter is 19. Speaking of young looking mamas, I once heard of a 25-year-old mother of four children who was refused entrance to a night club in Chicago. The man at the door said she looked like a minor and he wouldn't believe otherwise unless she brought along a birth certificate. Then there was that divorce suit in New York. The husband said that when they were married his wife told him she was 28. He later found her birth certificate which showed she was not 28 when married, but 49! Imagine a woman telling a man about to marry that she was 21 years younger than she really was and getting away with it!

::: APPETIZING RECIPES :::

Little Date Cakes, topped with hot sauce, make a gala dessert. The batter can be baked in a square pan if you prefer.

Date Cakes

One and three-quarter cups sifted cake flour, 2 tsp. baking powder, 1/4 tsp. soda, 1 1/2 tsp. cinnamon, 1 1/2 cups chopped dates, 1/4 cup shortening, 1/4 cup sugar, 1 egg, well beaten, 1 1/4 cups canned condensed tomato soup.

Sift together flour, baking powder, soda and cinnamon: roll dates in a small amount of flour

mixture. Cream shortening and sugar; add egg and mix well. Add flour mixture alternately with soup; stir in dates. Pour into a greased and floured 9-inch square pan. Bake in a moderate oven (350 degrees F.) about 45 minutes or until done. Serve with a hot dessert sauce. Note: May be baked in cupcake pans at 350 degrees F. for 25 minutes. Makes 18 cupcakes.

OUR COMPLETE SHORT STORY—

12 O'CLOCK AT MIDNIGHT

—By WALTER STEELE

I SUPPOSE it is absurd to talk about hunches, and yet I knew what was in that letter. As plainly as though I had read it. I knew its contents, and they were going to change the course of my whole life. The climax of my life was at hand. The time was approaching when I must make my choice.

I changed my clothes and washed. Then I went to the ice box and mixed a drink.

The letter lay unopened on the table before me.

As though drawn by a magnet my eyes kept staring at the envelope. It wasn't as if I did not know what was in the letter. It was like looking at something you fear. I flung myself into a chair. The clock said 10 p.m. Beads of perspiration formed on my forehead. I reached for the letter and tore it open.

"We take this opportunity of reminding you (it read) that your late Uncle James Bisby was desirous of keeping all his money solely within the family. His will clearly stipulates that unless you renounce your right to get married by twelve o'clock midnight on the last day of this year you will be disinherited . . ."

Like the summons of doom the telephone rang. "Hello, my voice sounded hollow.

"Randy," said a dear, familiar voice. "It's almost time. Take the money and forget me."

September home building double

TORONTO. — Contract awards for Canadian homebuilding in September totalled \$89,765,100, an increase of 102 percent on September, 1953, says MacLean building reports.

When considering all categories the Canadian construction industry lost some headway in last month's figures but this was due more to lack of large individual projects than to a general decline in activity. Awards totalled \$180,630,300, a drop of 13 percent from last September's figures.

To the end of September, however, the year's total was \$85,500,000 ahead of the first nine months of 1953.

Apart from homebuilding, the other three categories listed recorded losses last month on September, 1953. Business dropped 6.5 percent to \$56,656,100, industrial 30.7 to \$10,134,400, and engineering 70.1 to \$24,174,700.

In the four western provinces residential gained 20 percent, engineering 100 percent and business and industrial lost small percentages.

Twenty jobs awarded during the month were valued at more than \$1,000,000 each, including \$3,000,000 for a hospital addition at Winnipeg.

money, tossing it in the air; the money showered around the room like leaves in a windstorm. The clock ticked away like a piano during a melodrama. Then Ann produced a match, lighting the big stack of money. The flames roared toward the ceiling. I looked at the clock. It was almost twelve. I exploded: "Keep the damn money! . . . keep it! I'm taking Ann! I love you, Ann!"

Dimly I heard the clock toll off twelve and the lawyer's voice. Startled, it brought me back to normal and I felt a warm, peaceful glow; the tension had gone. At last I was the same Randy James I had been before my uncle's will. "Sorry, Mr. Babitt, I guess things were just too much for me."

"That's all right, you have had a hard time of it. You did the right thing, lad! I'm proud of you. I am glad you decided to marry and forget the money. Now we can open the codicil and see who gets the money." The lawyer pulled out a long impressive envelope from his inside pocket and ripped it open. Reading:

"To my nephew Randolph James: "This letter was to be opened only, in the event, that you chose to marry in the place of money. So I assume that you refused my money. I put you to this test, Randy, because Ann is the daughter of a girl I once loved. Ann is a deserving woman like her mother. If you had taken the money, certainly, you would not have been worthy of her love. Now that you have chosen to marry her I bequeath my fortune to you just the same. May you both be happy." Canadian statistics report

(A Weekly Review)

Trade—Larger shipments of wood pulp, newsprint, nickel and several other commodities were more than offset by substantial drops in wheat, other grains and wheat flour. Canada's domestic exports to all countries in August were nearly 6 percent below a year earlier. January-August tally: a drop of almost nine percent. Trade in outstanding securities between Canada and other countries in the first seven months resulted in a capital inflow of \$58,000,000 in contrast with a net outflow of \$26,000,000 last year.

Production—Canada's industrial production was about 3 percent lower in July and the first seven months this year. Responsible for the July drop was a reduction of nearly 6 percent in manufacturing output, mainly in durable goods. Mineral production was close to nine percent above last year's July level, and output of electricity and gas was six percent higher.

Minerals—Nine percent less coal was mined and 17 percent less imported in August this year. In the first eight months production was off 6 percent and landed imports were down by nearly a quarter. Outputs of copper and nickel were appreciably higher in July and the first 7 months this year.

Manufacturing—The slump in pig iron and steel continued in July and production was down by about one-fourth in the first seven months. Factory sales of batteries were up over 14 percent in January-July, but seven-month shipments of washing machines, steel wire and fencing were down.

Food—More eggs, milk, soft drinks, margarine, shortening and lard were produced in August than the same month last year. About 25 percent more sows are expected to farrow in the June-November period this year than in the same 6 months last year.

Merchandising—Department stores sales rose more than 5 percent above last year's level in August. Retail sales were virtually unchanged from a year earlier in July, were down a moderate 1.3 percent in the first seven months. Second-quarter retail cash sales were down slightly from last year, but instalment sales were off more than seven percent and charge sales nearly three percent.

Accidents—10,959 persons were killed or injured in motor vehicle accidents in Canada in the first-quarter this year. Of the 59,250 accidents reported, 396 caused 451 fatalities, 8,093 brought injury to 10,508, and 50,761 resulted in property damage only.

Saves lives of 22 Eskimos

OTTAWA.—The army told the story of a signals corps sergeant who doubled as a doctor last spring to save the lives of 22 Eskimos in a lonely native camp in the Northwest Territories.

The chief of the general staff has given a citation for commendable conduct to Sgt. Frederick H. Waite, 33, of Lindsay, Ont. He was NCO in charge of the Royal Canadian Corps of Signals station at Ennadai Lake, N.W.T., last May when an influenza epidemic struck a tiny Eskimo village three miles away.

Weather conditions prevented a doctor from reaching the scene but Sgt. Waite kept in touch with Fort Churchill, Man., by radio. He treated six patients with penicillin and aspirin. Next day he found eight new cases. He delayed treatment on one man established as a control case allowing his symptoms to develop so medical authorities at Churchill could confirm their diagnosis.

At one stage the sergeant himself developed flu symptoms but kept going, treating his patients in accordance with radio instructions. And they all pulled through.

Sgt. Waite's citation said he acted "in accordance with the best principles of medical practices."

BOY SCOUT ACTIVITIES

SCOUT NOTES

By the S.M.

Well, Now we have more boys than ever in the Troop again, and the poor recruits have no idea of what they are in for, or of what is likely to happen to them. Just think, our Scout Party occurs on Wednesday, December 29th—too late to publish the account of it in this edition—however, you will have the opportunity of reading all about it next week. If they come out of the party with a whole hide they can consider themselves lucky.

We now have three Patrols of eight boys, with Patrol Leaders Billy Mucha, Arthur Hoivik and Ronnie Fox handling them.

The Patrols are named after animals and birds, and Billy's Patrol is known as the Meadowlark Patrol. When they start in

to sing, I would sooner hear a real meadowlark. Arthur's is the Beaver Patrol, and answer to the name of "Grandpa". While Ronnie's is aptly named the Fox Patrol. I won't pass remarks about his Patrol as there are quite a number of Fox's in the district—and some of them are bigger than I am.

The boys are steadily improving in their work, though their progress has been somewhat slowed at this time due to the Christmas festivities. However, after the New Year has started, and the boy's tummies have returned to normal size, Mr. Roberts and I are going to see what can be done about making them do some work for a change—so boys—look out. By the way, I saw Ronnie on Boxing Day and I will have to make arrangements for a bow to be cut out of the doors of the Scout Hall so that he will be able to get in for the party. If that is not sufficient, we can always grease the edges. On the other

hand, we only need to enlarge the keyhole to enable Larry Luft to enter. Oh, how I love to tease the boys through the medium of this column. By the time they read it and see me again, they have regained their good humor and I am safe.

All joking aside however, I will say this, that the boys, Mr. Roberts and I get along like one happy family—though I am glad that I have not got to foot the grub bill for the lot.

Well, folks, on behalf of the Carbon Boy Scout Troop, I wish you health, happiness and prosperity (and lots of quotas) during 1955, and may it be a good year for all of us.

Hugh M. Isaac

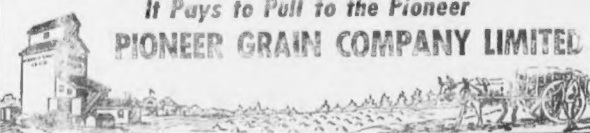

OUTLOOK FOR 1955

Canadian business in 1955 will probably travel a somewhat smoother road than in 1954, but basically the year ahead looks to be much the same as the one now ending, according to the

Bank of Montreal Business Review for December.

Under the title "Testing the New Model" the review finds the nation's postwar economy analogous to the topical new-model car. Like the new-style auto, it is a larger product with many new features and a brighter, more affluent appearance than the pre-war version. It has excited much favorable comment both from observers who have viewed it from the outside and from those who have seen its interior.

COFFEE SHOPS ON WHEELS—

The Canadian Pacific's answer for travellers wanting snacks and lower priced meals on trains is coffee shop section shown above of new scenic dome coaches now going into service on transcontinental trains. Steps at centre rear lead to scenic dome section where coach travellers can enjoy all-round view of passing scenery. A third section of these new Budd stainless steel streamlined cars contains 26 coach seats

equipped with full length leg rests and reclining backs for long distance travellers. The 18 cars in coach-dome-coffee shop series are colorfully decorated with carved linoleum panels of provincial legislatures and coats of arms. In addition to the coffee shops which serve meals and snacks throughout the day and evening, the new C.P.R. trains will be equipped with ultra-modern dining room cars which will be delivered next Spring.

COMPLETELY RE-STYLED CHEVROLET FEATURES V8 ENGINE

The futuristically designed 1955 Chevrolet, offering for the first time, a high-output 162 horsepower V8 engine as well as a more powerful six cylinder "Blue Flame" economy-leader, was announced across Canada today. Greatly increased comfort and driving qualities stemming from re-engineered frame and suspension

are enhanced by the first "dream car" styling in the low price field. The Bel Air Sports Coupe (above) illustrates the broad, low grille and hood treatment, greatly increased vision through the new sweep-sight windshield, and the "fleet" look imparted to all 14 body styles by the longer, lower lines of the new models.
